Thanks Omar: this looks good for the PT comments. Were you going to add in the non PT comments/responses as well? I think that is what she was asking about.

Thank you Kimi.

I think it would help if Omar and I walked through these comments with you before we make further revisions, etc. Do you have some time by tomorrow?

Omar: can you merge the two documents so we can work from one document going forward?

Subject: Comments on RTC - Powertech's ESA comments

Hi Omar and Douglas,

My comments on the draft responses to Powertech's ESA comments is attached. Let me know if you have any questions. Lucita, there is a note in the margin requesting your review on our authority.

Please merge this document with the other ESA comments/responses because there is overlap (ESA consultation process, enforcement authority, etc.) and it would be helpful to use the work we have already done.

Thanks, Kimi
